What's New At Nova? Lots Of Things ...

Law School

The new Law School Board of Governors, chaired by **Ray Ferrero**, Esq. of the firm Ferrero, Middlebrooks and Strickland of Fort Lauderdale, comprises prominent civic and professional leaders of the Dade/Broward, Palm Beach community, actively committed to helping "promote, expand and enhance the further development of Nova University and its School of Law."

One of the Board's tasks will be to advise on how best to use the interest on the \$5 million endowment allocated to the Law School by Nova University out of the recently settled \$16 million Leo Goodwin Sr. Unitrust.

The University's Board of Trustees has designated the interest on \$1 million to be used for professorships, scholarships and student loans. A portion of this fund has been earmarked for "Distinguished Professors," the first of whom is **Mr. Justice Arthur J. Goldberg**, who will arrive at the university in August of this year.

Interest on the next \$2 million is being set aside toward the purchase of the new Law School building (at 3100 SW 9th Ave., Ft. Lauderdale), now being leased from Olympia and York, in ten years. The remainder will be used for law-related inter-disciplinary programs, the purchase of special law library materials, and anything else the Law School might need to "maintain optimum standards."

The new Law School facility, spacious as it is compared to its former temporary quarters in the Parker Building on Nova's main campus, is still not large enough to house a law library with the 250,000 or more volumes the

(Continued on Page 4)

Corporate Programs

In response to request from industry in Broward County, Nova College has developed a new corporate unit which will be directed by **Dr. Anna Mae Burke**. Bachelor degree programs in Electrical Engineering, Electronic Technology, Computer Science, and Mathematics, and Certificate programs in Basic Electronics, Advanced Electronics and Computer Science have been developed. Classes in these programs will begin in March.

The programs are structured in such a way that the student does not have to decide his or her major within these areas at the beginning of the program. The concept of a second Bachelor degree for those who now feel the need of technical credentials is also being stressed. Classes will meet both on the main campus and at industrial sites in nine-week cycles. The second cycle will begin May 5th.

Opportunities will be provided for students to test out of specific courses using written, oral and/or laboratory demonstrations so that they may validate on-the-job learning experiences.

Administration

On Feb. 1, a new **Center for the Study of Administration** was formed, incorporating the Public Affairs programs, Criminal Justice, Graduate Management, the Governmental Assistance Service, and certain Computer Science Management programs. The Center will maintain close ties with the National Ed.D. Program for Ed. Leaders, the Law Center and the Office of New Programs.

Dr. John M. Clarke, Director of the Center, asserts that he is committed to the exploration and use of improved delivery systems, the application of diagnostic methods to teaching Business and Public Management, and the improvement of course content and faculty. The Center will retain the national character of the DPA programs and pursue new developmental approaches and closer ties with the business community and needs of South Florida.

Dr. David Britt is the Associate Director of CSA with primary responsibility for the DPA and the Criminal Justice programs. **Jane Whitney** is the Assistant Program Director for the DPA program, although she will be teaching in both Public Affairs and Business. **Dr. Martin Veiner** will head the DBA program. And **Margaret Shearon**,

(Continued on Page 4)

Education

By **Dr. Richard Goldman**, Director
The newly organized Center for the Advancement of Education (CAE) is dedicated to the training of teachers, administrators, trainers and others working in education who serve as the bridge between the knowledge base in education and the quality of education who serve as the bridge between the knowledge base in education and the quality of education experienced by their students. The Center hopes to fulfill its commitment to the advancement of education by serving as a resource for these practitioners and supporting them in their self-development.

To accomplish this mission, the Center will offer educational delivery systems designed to meet the needs of the working practitioner, particularly in areas where few resources for training and professional support currently exist.

Because of its commitment to the working professional, CAE will offer alternative educational delivery systems which are adaptable to the practitioners' work schedules and locations, and aid professional educators in achieving their personal goals, including certification requirements.

(Continued on Page 4)

Poli-Sci

Nova College is introducing a new and strengthened major in Political Science for the Spring-Summer trimester (replacing the current major in Politics and Public Affairs). The new curriculum has ten required core courses and a choice of two specialties: Pre-Law and Political Science.

The Pre-Law specialty was designed on the advice of a number of law schools including Nova's. The curriculum includes not only Political Science but also Economics, Business, Philosophy and a variety of Liberal Arts courses to enable the prospective law student to excel in his or her profession.

The Political Science specialty, consisting of five senior-level courses in that subject area, will put Nova College on an academic level with the leading universities in the nation. The curriculum combines classical and modern theories of behavior, and includes a wide range of new courses.

* For further information, call **Dr. Richard Hillard** at 475-8300 ext. 295.

BULLETIN BOARD

Career Fair Planned

Nova University will again be represented at the annual Fort Lauderdale Career Fair, a recruitment program sponsored by the city of Ft. Lauderdale and most of the major corporations and agencies in Broward County. High school graduates and college students from across the country, vacationing in South Florida during their Easter break, are expected to come by to find out about employment and educational opportunities in this area.

The Fair will take place on Monday and Tuesday, March 31 and April 1, at the Swimming Hall of Fame on Fort Lauderdale beach, from 10 a.m. to 4 p.m. Nova faculty, staff, students and alumni are invited — urged — to volunteer their services to staff the Nova booth. Call **Rose Ann Schaefer** at 475-8300 ext. 253,4 to reserve a time.

You're Invited

Members of the Nova family (faculty, staff, students, alumni, and community support groups) are invited to a wine and cheese reception Friday, March 28, at the Mailman Building library, from 3:30 to 6 p.m. The reception is in honor of all Nova artists who are exhibiting in this year's "Arts of Spring."

The public is invited to view the exhibit Saturday, March 29, from 1 to 4 p.m.

Enrich Yourself

Three new non-credit enrichment courses will be offered during the Spring trimester at Nova/Coral Springs beginning March 17.

"Parenting Today" by **Deena Golding** is given on six Monday evenings, from 8:15 to 10:20 p.m., from March 17-April 21. "Divorce and the Single Life," taught by **Dr. Pat Distasio**, is given on six Tuesday evenings from 8:15 to 10:20 p.m., March 18-April 22. And "Novart I," taught by **Marshall Salzman**, is being offered on eight Mondays from 9 a.m. to Noon, March 31-Mar. 19.

Call Nova/Coral Springs at 753-3300 for further information.

Seminar Planned

A seminar titled "Can Plan Virology Benefit Cancer Research?" will be given on Friday, March 7, at 4 p.m. in the Mary Ellen Young Memorial Room of the Parker Building. The seminar will be given by **Dr. Karl Maramorosch**, Professor of Microbiology, Waksman Institute of Microbiology, Rutgers University.

Pre-Law Fairs

Everything you ever wanted to know about going to law school but didn't know who to ask ... all those questions will be answered at a series of two pre-law day fairs at Nova Law Center, Thursday, March 27 and April 3, from 1-4 p.m.

Perspective students — and interested observers — are invited to visit the Law School at 3100 SW 9 Ave., Ft. Lauderdale, to hear presentations by **Dean Ovid Lewis** and members of the faculty, learn about the activities of the Student Bar Assn., tour the building, and sit in on a class. For further information, call **Prof. Valerie Kanouse** at 522-2300.

Legal Seminar

Nova University Law Center's Second Comparative Legal Seminar (United Kingdom — United States) has been set for July 28 through August 8, at Merton College, Oxford, England.

The Dean of the Exeter College of Law has arranged a day long program using his faculty in presenting the court system of the United Kingdom. **Ronald H. Maudsley**, Director of the Oxford Institute for the University of San Diego, will speak on international estate planning; **Monrad G. Paulson**, Dean of Yeshiva College of Law, will speak on the comparison criminal system; and **Dr. Trai Le**, Notre Dame Professor of Law, will speak on international business transactions.

For further information call **Roland C. Graff**, CLE Director, Nova University Law Center, (305) 522-2300. (Registration limited to 55).

Be Creative

Nothing is duller than a dull classroom. And nothing is guaranteed to brighten things up, and get some learning really happening, like lively classroom in Creative Writing, Mime, Puppetry, Theater Games, and Equilibristics.

Ed Allen and **Mimi Schultz**, directors of the famed Fantasy Finger Factory, will be working with the Center for the Advancement of Education in two intensive five-day courses for teachers, which will be offered in Palm Beach County March 31-April 4, and in Broward County April 7-11.

For further information on this new, creative way to teach, call the CAE at 475-8300 ext. 340 (in Broward); 659-3515 (in Palm Beach); 944-2910 (in Dade); or 1-800-432-2744 (anywhere in Florida).

Who are all these lovely ladies, and why do they look so happy?

Educators Nominated For Award

Fifty school administrators from across the country have been nominated for the 1979 School Improvement Award established by Nova's National Ed.D. Program for Educational Leaders "to recognize outstanding professional achievement in serving the educational needs of our children."

The Award is given on the basis of a "practicum" — a job-related project executed by every National Ed.D. Program candidate as part of his/her degree requirements. The 'practicum' involves the identification of an educational need, the development of a plan to meet that need, the implementation of the plan, and an evaluation of the results. Since the Program's inception, some 2500 effective new programs in 30 school systems throughout the country have been implemented as a direct result of 'practicums' done by Nova's National Ed.D.

Program participants.

The winner of the 1979 School Improvement Award will be picked later this year by a panel of local and national educators, and honored at the closing banquet of the 1980 Summer Institute of the National Ed.D. Program, which takes place in Miami Beach on July 17-24.

The nominees (by state) are: California: Ken Kammuller, John Donovan, Leon Spiegel, Thomas O'Shea, and Robert Blazan of San Francisco; Rene Barrios of Sacramento; Lanny Nelms of Los Angeles. Connecticut: Herbert Sheppard and Ernest Perlini of Stamford.

Delaware: Neil Postlethwait, Charles Hudson, Hubert Mock, Ed Groate, and Richard Musselman of Dover.

Florida: Jean Moeller and Frank De Laurier of Miami/ Ft. Lauderdale; Lucille Coberly of Jacksonville.

Georgia: Robert Clay, Ted Turnbough,

and Mary Lee Armstrong of Douglas; Harold Daniel of Atlanta.

Illinois: David Cox of Chicago.

Maryland: Judine Johnson, William Potter, Robert Tolley, and David Denton. Massachusetts: Janice Hurwitz, John Delaney, Felix Zollo, Rocco Malfitano, John Crisafulli, and Jean Sanders of Boston.

New Jersey: Bertram Nussbaum and Charles Valentine of Trenton.

Pennsylvania: David Pisani and Paul Gulyas of South Park; Walter Scott, Joseph Fotos Marvin Goldenberg, Robery Marcus, Sadie Mitchell, and Dustin Peters of Bucks County; Richard Strauss of Philadelphia.

Rhode Island: Frances Russell.

Texas: Andrew Martin, Joan Patterson, and Paul Riddles of Dallas.

Virginia: James Price of Henrico.

Washington D.C.: Jessie Mason.

Ph.D. Students — Reason To Be Proud

There's proud news for the Behavioral Sciences Center's Ph.D. in Psychology program, and proud news for Nova.

All seven Ph.D. who have finished their course work and practicums have been accepted for clinical internships at APA (American Psychological Association) accredited

Practicums Published

By Polly Ebbs

The Practicum component in the Ed.D. Program in Early Childhood Education is becoming a very rewarding experience for many participants. The anticipated outcomes have always been meaningful: improving the education system or institute and becoming an effective change agent. However, several participants have recently had additional, unanticipated rewards:

Diedre Satterwhite and Lois McCoy, while they completed independent practicums, spent last summer putting their work together, and have written a book called "A Collection of Gamelets and Playlets for Young Children." Vantage Press has agreed to publish the manuscript.

Marvin Silverman's third practicum resulted in a manuscript titled "Questions Elementary School Teachers Ask About Improving Children's Behavior." H and H Enterprises, Inc. have agreed to work with Marvin to publish this text.

Diana Wasserman's first practicum, "A Living Law: P.L. 94-142 and Direct Service Personnel," was enthusiastically selected for the Educational Resources Information Center [ERIC] system and will be abstracted in "Resources in Education" and "Exceptional Child Education Resources."

Nova students are bringing about changes in their work environments. We are pleased that their practicum efforts can be shared with professionals throughout the United States.

A Typical Day In The Life Of ...

Ever wonder what members of the Institute for Retired Professionals do with their "spare" time?

Four days a week, they go to classes, and delve into subjects that would make most people's heads spin. Not only that, but they're all experienced, knowledgeable and intellectually curious enough to give every speaker a fast run for the money. (I should know. I was a guest speaker, and my head hasn't been the same since.)

Just as an example, a typical month's schedule of classes at IRP runs like this: "Jacksonian Democracy; Rise of the Common Man," "The American Novel: The Women's Room," "Civil War: Reconstruction," "Creative Writing and Play Reading," "Floating Opera," "The New Deal," "Music Analysis," "The Eyes Have It," "The Automobile: Friend or Fiend?," "Society of Athens: Is Morality Moral?," "Subliminal Seduction," "French Literary Masterpieces," "Jerusalem," "Rome," "Current Events: Round Table."

There were no classes Feb. 29. The IRP was taking a trip to Sarasota.

Now, don't you wish YOU were "retired"?

Who's Who?

Who's Who in America, in Education, in Law, in College Students, or in any of a host of other important categories? Lots of people from Nova, we suspect. People who deserve mention, not just in those volumes, but here in Nova News where friends and colleagues can share the joy and pride of their accomplishments.

Would anyone in the Nova community who is listed in any Who's Who please notify the News Office, so that we may publish a list of our honorees in a forthcoming issue. The phone is 475-8300 ext. 380.

clinics. Not only that, but the clinics are among the most prestigious in the country, according to Dr. Leo Reyna, Director of the program.

David Ahern will intern at Butler Hospital, which is affiliated with Brown University; Dominic Zaccaro will go to Children's Village in Dobbs Ferry, N.Y.; Gary Dube and Mark Nitzberg will be at McLean Hospital, affiliated with Harvard University; Janet St. Lawrence will be at the Department of Psychiatry and Human Behavior, University of Mississippi; Lee Baer is going to the Veterans Administration Medical Center in West Haven, Conn., a facility affiliated with Yale University; and John McClure will intern at Western Psychiatric Institute and Clinic, affiliated with the University of Pittsburgh.

"These students' acceptance at such an impressive array of schools, I feel, reflects well on Nova's Department of Psychology clinical program," said Dr. Reyna. "Our students did well, I believe, because we see to it that they develop excellent research skills, and give them opportunities for good practical training through the variety of clinics we have here. We're very pleased, and very proud."

BSC Gets CETA Contracts

The Behavioral Sciences Center has been awarded two research and development grants totaling \$156,000 from the State Employment and Training Council, Florida Department of Labor and Employment Security. The grant applications were initiated by Dr. John Flynn, Center Director, in cooperation with Dr. Norman Scheinkman, a consultant on manpower.

The first project will provide technical assistance to state prime sponsors under the Comprehensive Employment and Training Act (CETA) in developing and implementing successful older worker employment and training programs. Anticipated activities include establishing an informative clearinghouse, disseminating information about older worker programs in other states, conducting statewide workshops, and providing on-site technical assistance to prime sponsors.

The second contract is for the establishment of a model Vocational Academy for disadvantaged persons. The Vocational Academy would like the resources of private employers with those of educational institutions and prime sponsors. Through the projects, industry would become actively involved in training disadvantaged persons for non-subsidized employment under the CETA program.

The programs will be run by project managers under the direction of Dr. Flynn, with Dr. Scheinkman continuing to serve as a consultant to the projects. The two contracts represent the Center's first venture into employment problems. Dr. Flynn sees them as a first step toward establishing an ongoing effort in the area of employment and manpower resource development.

New BTM Cluster

The Feb. 11 orientation meeting held by the Lifelong Learning Institute's Bachelor of Science in Technological Management program was so successful that a new cluster was able to be started Feb. 26. So many people signed up for the program, in fact, that LLI anticipates starting another cluster in the near future.

BTM, which offers people with 'terminal' A.S. degrees an opportunity to earn their bachelor of science degree without forfeiting any of their credits, appears to have widespread appeal to working adults in the many technically oriented companies in this area.

For further information about the program, call 475-8300 ext. 212,9.

Summer Dreams — And Triumphs

By Dr. Marilyn Segal

Summer climbed three steps to the top of the toddler slide, looked around to make sure everyone was looking, sat down stiff-legged and slid down to the bottom. "Good girl!" Summer's mother cheered, giving her daughter a hug. Brad, who had just learned to clap his hands, joined the circle of mothers in applauding Summer's feat.

"Summer's motor skills are progressing beautifully," I commented. "How is her language coming?" "Nothing new this week," Summer's mother replied. "I guess you can't expect miracles."

While we were talking, Summer picked up a rubber doll and toddled back to the slide. Clear as a bell, her voice sounded, "Dolly, up!" Her mother's eyes flooded with tears. For the first time in her life, Summer had said two words.

The Ring-A-Round program at Nova University is a play group for developmentally delayed infants and toddlers. Although "miracles" do sometimes happen, Ring-A-Round is designed, not as a therapeutic program but simply as a play group experience for children and parents who need opportunities for socialization.

The morning begins around 10:00 a.m. Mothers, and occasionally fathers, sit in a large circle holding their babies in front of them. Following the "Hello Song", in which each child is greeted by name, there is a series of simple group activities: exercises, nerf ball rolls, swaying to music, and a rattle rhythm band. After a few group activities there is a "Share and Show" where each mother can show the group the games or activities that her child enjoyed during the week.

Following "Share and Show", there is a free play session in which parents have an opportunity to talk with each other while their babies play in a "Make a Mess" session.

The Ring-A-Round program is perhaps more unique in terms of what it is not, than what it is. In contrast to most programs for children with developmental problems, Ring-A-Round is neither therapeutic, in the literal sense, nor individualized. Rather than emphasizing and highlighting individual differences, Ring-A-Round emphasizes needs and characteristics that handicapped and non-handicapped children have in common. It recognizes not only the needs of infants to have fun in a group, but also the needs of parents to interact with other parents in an "upbeat" environment.

Conference On Aging

"Enhancing the Quality of Life in the Later Years" was the theme of the Second Annual Behavioral Conference on Aging sponsored by Nova's Behavioral Sciences Center January 23-26, at the Galt Ocean Mile Hotel, Fort Lauderdale.

Nationally recognized authorities in Gerontology, Psychology, the Social Sciences, Medicine, Education, Architecture, and Political Planning shared current research findings and opinions, and discussed their implications for community program development, service delivery and training of mental health practitioners.

The conference was by subscription, but Friday afternoon's program was free and open to the public. There were display booths by community organizations and agencies dealing with problems of the aged, and a presentation by Betty Ann Badger, Professor of Gerontology at Nova, Director of the South Florida Geriatric Center and Consulting Professor of Gerontology for WINZ radio.

Betty Ann Badger

STUDENT OF THE MONTH

Anil Edwards has come a long way in pursuit of his goals. This May, when he graduates from Nova with a masters degree in Learning Technology, he'll have taken a giant step in the direction of what promises to be an exciting new career.

Born in India of parents who were both school teachers, he quite naturally gravitated toward teaching — after earning two bachelors degrees, one in Liberal Arts, and one in English as a Second Language. He taught for two years in Calcutta, and then, because of a health problem, came to America where he found a job with a chemical company as a laboratory technician. ("Not that I was that great in science, although I had taken several science courses at St. Stephens college in New Delhi," Edwards laughs. "I was a simple matter of survival. I needed a job and they offered me one.")

Since then, he's worked for several companies on a variety of technical projects. And then, one day a few years back, he realized that the dissemination of information — making training tapes, producing manuals, and such — was as much a vital part of any research and development project as the engineering which created the product in the first place. That was when he enrolled in Nova's Learning Technology program — and found a whole new conceptual world opening up to him.

Edwards is now writing a manual for the operation of a multi-image control system. This manual, however, uses pictorial symbols which can be readily understood by almost anyone — not just a graduate engineer.

"The things I learned in semantics class, particularly those classes taught by the late Dr. Richard Bell, for me thinking about ways to communicate highly technical concepts," he explains. "I started experimenting with symbols, and discovered that through symbols, I could communicate complex ideas more clearly. What I've learned at Nova is really the basis for the whole concept."

"Now, if you ask me what I want I want to do with my life — in the best of all possible worlds, of course — I'd have to say I'd like to make educational films for children," Edwards says. "I'd like to make nature films to make them more aware of the beauty they're born into, and better able to cope with the world and its natural environment. I'd like to make films to teach children about simple machines to help them understand how they can use machines to help them do many things. I think this would give me the greatest satisfaction, professionally and personally."

Testing, Testing...

No one likes taking tests — until they see how useful they can be in helping a young person plan his future college and career goals.

This year, for the first time, sophomores as well as juniors, at the University School were allowed to take the PSAT exams to give them some idea of how they stand in relation to other students around the country, and to let them begin making realistic plans for college. Reportedly, they did quite well, with scores ranging up to 1370.

The sophomores were also given the opportunity to participate in a three-hour test designed to give special information on their career potential. The tests were in three parts: an abilities measure, an interest inventory, and an information measure.

Students: You're invited to sign up for a "Burger King Students Club Card" which entitles you to a free soft drink with the purchase of any sandwich and fries. In Davie, Burger King is at 3951 SW 64 Ave.

Nova News is a publication of, by, and for the Nova community and its many friends. If you've done something especially noteworthy lately — gotten a promotion, published a paper or a book, completed an important project, received an honor or award — please notify the News so that everyone can share your proud accomplishment.

Please notify the News also if you change your address, remembering to include the Center or Program you are or have been associated with.

Reunion Planned

An Alumni Commencement Dinner and Dance will be held at the Inverrary Country Club on Saturday, July 26, 1980, the evening prior to the University Commencement exercises. All degree candidates, alumni, program directors, faculty and staff are invited.

More about these and other plans will be forthcoming during the next few months. In the meantime, mark your calendars, and keep July 26th open for our Alumni Reunion.

Nova Grads Make Schools "Exemplary"

The Georgia Educational Improvements Council declared "Exemplary" for "significant improvement in student achievement and comprehensiveness of instructional programs during the year 1979.

Three of the five school systems have Nova graduates in key positions:

Pile County Schools — **James D. Turpin**, Ed.D. (CSLD), Superintendent.

Henry County Schools — **Howard F. Baker**, Ed.D. (CSLD), Superintendent.

Coffee County Schools — **Julian A. Williams**, Ed.D. (CSLD), Assistant Superintendent; **Mary Lee Armstrong**, Ed.D. (CSLD), Special Education Director.

Alumni Represent Nova

REGION I

The Independent Colleges and Universities of Florida presented the C.H.I.E.F. (Champion of Higher Independent Education in Florida) Awards, at a banquet in Jacksonville, on Thursday, February 7, 1980. Nova University was represented by: **Virginia A. Borrok**, DPA; **Ezekiel W. Bryant**, Ed.D. (CHE); **Stella M. Gourneau**, Ed.D. (CSLD); **John W. Greider**, Ed.D. (CSLD); **Alan [Terry] Penn** DPA.

REGION VI

H. Keith Buhler, Ed.D. (CSLD), represented Nova University at the inauguration of Stanford Cazier as twelfth president of Utah State University. Dr. Buhler reports that he believes the following quote from Alfred North Whitehead, a mathematician and educator, is most applicable to Nova University. "The justification for a university is that it preserved the connection between knowledge and zest for life by uniting the young and the old in the imaginative consideration of learning."

Chapter Meetings

Ms. Jane Whitney, members of the program staff; and **Dr. Stephen Goldstein** were also present.

The Metropolitan Washington Area Alumni Chapter (Region II) met on Wednesday, February 20. The guest speaker was **Philip Rutledge**, President of the National Institute of Public Management, past national president of ASPA, former chairman of Public Administration at Howard, and former Assistant Secretary, Department of Labor. His talk was about Public Management from the Minority and Third World Nation standpoint.

At the meeting of the South Florida DPA grads at Nova were (left to right) Dr. Kathleen B. Magrath

('79), Dr. Peter C. Paraskeva ('79), and Bernice Blackwell, DPA administrative staff member.

Graduates Making News

REGION I

Tony Di Girolamo, Ed.D. (CHE '79), has been promoted to Associate Dean, College of Aviation Technology, Embry Riddle Aeronautical University, Daytona Beach, Florida.

Robert C. Preziosi, DPA (CPAA '77), has recently developed a survey feedback instrument entitled, "Organizational Diagnosis Questionnaire" which is being published in "The 1980 Annual Handbook for Group Facilitators" by University Associates, a leader in the field of international consulting and publishing.

Royall P. Terry, Jr., MS/CJ (CPAA '79), has been appointed City Attorney for the City of Homestead, Florida. In addition to the usual city attorney functions, Terry has the responsibility of being the legal advisor to the police department.

Mary Ellen Stallings, MS (BSC '77), has been appointed Director of Personnel Services at Biscayne Medical Center, Miami, Florida. Biscayne Medical Center is a 458-bed Acute Care hospital and one of several local hospitals owned by Humana, Inc. The Hospital Company. She has also been appointed to the Unemployment Insurance Advisory Council.

Pauline J. Harmon, Ed.D. (CHE '78), received a Fulbright-Hayes Grant for two months intercultural study in Taiwan in the summer of 1979.

Chester Handleman, Ed.D. (CHE '75), a Professor of History and Political Science at Broward Community College in Fort Lauderdale, Florida, is included in the 1980/81 edition of Marquis' "Who's Who in America" (South and Southwest volume). Some of his articles and book reviews appearing in 1979-80 are in "Community College Review" (published by North Carolina State University; "The Journal of Politics"; "The Western Political Quarterly"; "Adolescence"; "Social Science"; "Community College Social Science Journal"; "Education"; and others. He is a regular contributor to "American Historical Abstracts", Clio Press, Riverside Campus, Cal. In March 1980 he will speak at the annual meeting of the Florida Science Assn. in Tampa, and at the meeting of the Florida Endowment for the Humanities at Florida International University.

Muriel Kay Elledge-Heimer, Ed.D. (CHE '78), is currently Dean of Special Programs, Brevard Community College, with duties of supervising Continuing Education for Women as well as CETA skill training and other vocational

education grants. She was formerly Director of Continuing Education for Women.

Dr. Elledge-Heimer has been selected by the American Association of Women in Community and Junior Colleges (AAWCJC) to be a presenter at their forum in San Francisco in March, 1980.

Ron Prekupi, Sr., MS/CJ (CPAA '79), is a Florida-licensed private investigator who has opened his own agency in Hollywood, Fla., specializing in the tri-county area of Dade, Broward, and Palm Beach Counties. He was formerly a member of the select 100-man US Marshal's team (Special Operations Group).

Bob Presiosi (DPA, 1977), a consulting associate with Organizational Renewal, Inc. and a member of the American Society for Training and Development, is helping in the planning of a workshop, "Managing Change and Conflict," which will be held at Miami Lakes Country Club March 27. Featured speaker will be Dr. Gordon Lippitt, Prof. of Behavioral Science, School of Government and Business Administration, George Washington University. Direct inquiries to Bob who can be reached at 305/754-2444.

LAW SCHOOL ALUMNI

Linda Chambliss, J.D. 1978; graduated first in her class at the University of Miami Estate Planning Graduate Law Program receiving her Masters of Law degree in June 1979 ... **Allan Ehrlich**, J.D. 1979; former law clerk to Federal Magistrate Patricia Kyle and is now Senior Law Clerk for United States District Court Judge Alcee Hastings ... **Joel Lazarus**, J.D. 1976; appointed Chief Assistant in Felony Trial Division of the Broward County State Attorneys Office ... **Stuart Stein**, J.D. 1976; ran for State Legislative Representative from Broward County in 1978 and has recently opened up his own law practice in Broward County ... **Michael Olenick**, J.D. 1977; appointed First Assistant State Attorney in Broward County State Attorneys Office supervising D.U.I. cases ... **Jacquelyn Steinberg**, J.D. 1977; achieved national recognition by successfully representing Ms. Terry Moore, former inmate at Broward County Correctional Institution, by compelling the State to permit Ms. Moore to keep her baby with her while in prison. Ms. Steinberg is currently with Broward County Legal Aid Society ... **Dennis Haas**, J.D. 1978; appointed by the President of the Broward County Bar Association

An Alumni meeting was held at the Sea Wolf Restaurant, Oakland, California on Saturday, January 26, 1980. This was the first meeting of Alumni in San Francisco-Bay area (Region VI).

Fannie E. Brown, Ed.D. (CHE), was chairperson. **Dr. Stephen L. Goldstein**, Director, National Alumni Association, was present at the meeting.

A meeting of the South Florida DPA graduates (Region I) was held on Wednesday, February 20, in the Hollywood-Mailman Building on the Nova campus. **President Fischler**; **Dr. John Clarke**, Director of the Center for Public Affairs and Administration; **Dr. David Britt** and

to the Broward Bar Committee on Legal Services. Attention: Nova University graduates and students. There are two facets to the Placement Service.

1. YOU can help make the Placement Service work.

If you have a job vacancy in your organization, school system, institution or office, notify the Placement Office. We will then contact persons registered with this office who qualify for the position, and have them contact you.

To register these jobs, complete the following:

Title:
Degree requirements:
Salary:
Application deadline:
Job description (enclosed):
Name:
Address:

2. YOU can use the Placement Service If you wish to take advantage of the Placement Service, register by sending your credential file to the Placement Office.

To do this, please complete the form below, to receive you Credential File Packet.

Name:
Address:
Degree: Tel. No.:

Mail information about your activities to:

Toni Steinberg
National Alumni Association
Nova University/College Avenue
Fort Lauderdale, Florida 33314

A "Timely" Item For Your Office Or Den

This walnut finished wood clock measures 11" by 11" and is battery operated.

Send your check for \$35 (plus \$2.50 for shipping), payable to Nova University, to the National Alumni Association, Nova University, College Ave., Fort Lauderdale, FL 33314.

Happiness Is...

Planning The Derby Ball

Planning a splendid event can be almost as much fun as being there as a group of 25 ladies discovered to their delight at a recent luncheon at the Tower Club, arranged to plan for the upcoming Florida Ball.

The Ball, which takes place March 27 at Turnberry Isle Country Club at Aventura, is the social highlight of the Florida Derby Festivities at Gulfstream Park, and a fundraiser for Nova.

Chairmen for the 1980 Florida Derby are: Mrs. James [Mary Anna] Donn, Jr. — Honorary Chairman; Mr. and Mrs. Robert A. Steele — Perennial Chairmen; Dr. and Mrs. Hugo Waldheim — General Chairmen; Mrs. Patricia Phipps Bates — Co-Chairman; Mrs. Roy D. Smith, Jr. and Mrs. Harvey Kass — Hostess Co-Chairmen; Mr. and Mrs. Walter Griffith — Music; Mr. and Mrs. Harsen Smith, Jr. —

Decorations; Mr. and Mrs. James W. Rice — Invitations; Mrs. Donna Castro — Addressing of Invitations; Mr. and Mrs. Stanley Silverblatt — Location Co-ordinators; Mr. and Mrs. Arnold Grevior — Seating; Mr. and Mrs. Eugene F. Malin — Menu; Dr. and Mrs. Stanley Silberblatt — Location Co-ordinators; Mr. and Mrs. Harrison Eiteljorg — Program; Mr. and Mrs. William J. Holland — Advertising; Mrs. Marjorie Forrod and Mrs. Robert Jackson — Publicity; Mr. and Mrs. August C. Paoli, Mr. and Mrs. Sheldon J. Schlesinger, Mr. and Mrs. Raymond C. Qualmann — Broward County Chairmen; Dr. and Mrs. George E. Burch, Mr. and Mrs. Starr W. Horton — Dade County Chairmen; Mr. and Mrs. Donald L. Smith, Jr., Mr. and Mrs. Kenneth P. Saundry — Palm Beach County Chairmen.

The ladies pictured on page 1, who attended the luncheon, are: 1. Lindsay Smith, 2. Shirley Fischler, 3. Marti Huizenga, 4. Helena Jackson, 5. Midge Clark, 6. Jane Malin, 7. Maxine Silverblatt, 8. Donna Casto, 9. Muriel Smith, 10. Janice Saundry, 11. Judy Kass, 12. Paola Smith, 13. Millicent Steele, 14. Charlotte Horton, 15. Bobbe Schlesinger, 16. Alice Burch, 17. Mary Anna Donn, 18. JoAnn Waldheim.

THE SPORTING LIFE

In the winner's circle at Nova Charity Night at the Hollywood Greyhound Track, are (left) Dr. Stephen Goldstein, Director of External Affairs; Dr. Abraham Fischler, president; Jim Black, greyhound trainer, Nancy Varner of CSA; Perrine Palmer, Executive Vice president and General Manager of the Hollywood Track. Lead out boy (foreground) with "Kunta Troubles", winner of the Nova University race.

At Nova Night at the Pompano Harness Track are (left) Dr. Alexander Schure, Chancellor; Hubert Horst Riedel, owner of the winning horse, "Silent Torch," and Dr. Abraham Fischler.

CSA (Continued from Page 1)

supported by Dr. Phyllis Brick, will be responsible for all masters degree programs offered by the Center. Dr. George Graham will continue as academic advisor to the Center Director and National Preceptor Coordinator for the DPA. All of these (with the exception of Dr. Graham) will do some teaching in addition to their administrative duties, and assist in the support of all university programs where the specialties can be constructively applied.

Dr. Charke estimates that it will take between 60 and 90 days for the new Center to become fully integrated. Steps have already been taken toward that end as evidenced by the appointment of Nancy

Varner as Assistant Director for Market Development, the expanded use of the GMS student information system for all Center programs, the standardization of faculty rank criteria (pending before the Personnel Committee), and Dr. Clarke's announced intent to streamline registration and support activities.

"a primary goal of the Center," Dr. Clarke says, "is to produce a quality educational product with offerings in all fields of Administration. We are dedicated to providing the professional skills of business and public managers nationally. Innovation will be a critical part of this task, and close ties with the Offices of New Programs will be important to the Center's purpose."

PEOPLE IN THE NEWS

Melanie May and Julie Koenig, students at the Law School, will serve as law clerks to Mr. Justice Arthur Goldberg, Nova's first "Distinguished Professor", this Fall.

Dr. Ross E. Moreton presented a paper at the 1980 College Industry Education Conference which was held in Tucson, Arizona last month. His speech was titled "The Nova University Approach to Professional Development for Technical Educators." Participants of this Conference included chief executive officers from business and industry, engineering educators and directors of continuing education from colleges and universities throughout the United States.

Richard Goldman Director of the Center for the Advancement of Education, wrote an article titled "Evaluating Your Caregivers: Four Observation Systems" which was published in a recent issue of "Day Care and Early Education."

Dr. Julian McCreary, of the Ocean Sciences

Center, attended the International Coastal Upwelling Symposium, February 4-8, at The University of Southern California, Los Angeles. Dr. McCreary presented a paper entitled "A Linear Analytic Ocean Model of the Coastal Undercurrent." The paper contains one of the first explanations of a subsurface poleward flow observed off the west coasts of North America, South America, and Africa. This finding is surprising in that the current flows against the prevailing equatorial winds.

Dr. Pijush Kundu, of the Ocean Sciences Center, is attending the Upper Ocean Dynamics Workshop March 3-5 at Timberline Lodge, Oregon (at the top of Mount Hood).

A meeting of the Equatorial Oceans Theoretical Panel will be held April 29-30 in Tallahassee, in conjunction with Florida State University. Attending from the Ocean Sciences Center will be Dr. Julian McCreary and Ms. Jan Witte, Program Coordinator.

LAW (Continued from Page 1)

Law School plans to have within three years — a collection, incidentally, which will place it in the top half of law school libraries in the country. The Board is therefore conducting a campaign to raise funds for a new three-story library tower adjoining the present library, which will free the auditorium (now being used to store books) for use by the Law School, the university, and the community.

Besides Mr. Ferriero, the new Law Board of Governors includes: Maynard Abrams, Esq., of Abrams and Anton, Hollywood; Elliott Barnett, Esq., of Ruden, Barnett, McClosky, Schuster and Russell of Fort Lauderdale, Chairman of the Board of the Fort Lauderdale Museum of the Arts; Shepard Broad, Esq., of Broad and Cassel, Miami; founder and Chairman of the Board of American Savings and Loan Assn.; Trustee of St. Francis and Mt. Sinai Hospitals; Jack Chambers, President of Gulfstream Land Development, Ft. Lauderdale; President, Economic Development Council of Broward County; Willard Dover, Esq., of Fleming, O'Bryan and Fleming, Fort Lauderdale; Dr. Nina Ellenbogen, Esq., of Ellengogen and Glick, Miami; Secretary of the Nova Law School Alumni Assn.; W. Tinsley Ellis, Esq., of Ellis, Spencer, Butler and Kissian of Hollywood; founding member and Secretary of the Board of Trustees of Nova University; Foy Fleming, Esq., of Fleming, O'Bryan and Fleming of Fort Lauderdale; Chairman of the Board of Gulfstream Banks; Russell M. Gardner, Esq., of McCune, Hassen, Crum, Serris and Gardner of Fort Lauderdale; Lester Goldstein, Esq., of Arky, Freed and Stearns, Miami; Mrs. William D. Horvitz, prominent Hollywood civic leader; William F. Leonard, Sr., Esq., of Coleman, Leonard and Morrison of Fort Lauderdale, Chairman of the Board of Southeast Bank of Broward; and a member of the Executive Committee of the Inverrary Classic; Hugh T. Maloney, Esq., of Patterson, Maloney, Blyler and Feige of Fort Lauderdale; Barbara Mitchell,

Esq., Assistant State Attorney with the Broward County State Attorney's Office; August C. Paoli, Esq., of Paoli and Paoli of Hollywood; Trustee of Nova University; Fellow of the American College of Probate Counsel; Director of Florida Bankshares; Director of the First National Banks of Hollywood and West Delray; Dwight Rogers, Jr., Esq., of Rogers, Morris and Ziegler of Fort Lauderdale; Chairman of the Board of the Sun Banks of Wilton Manors, Lauderdale Beach and Broward County; Harold Satchell, President of Florida Bankshares; President of the First National Banks of Hollywood, West Delray and Moore Haven; Director of the Board of the First National Bank of Sebring; Sheldon Schlesinger, Esq., of Simons and Schlesinger of Fort Lauderdale, and Chairman of the Board of Trustees of Broward Community College; Joseph Varon, Esq., of Varon and Stahl, Hollywood; Ward Wagner, Esq., of Cone, Owen, Wagner, Nugent, Johnson, Hazouri and Roth of West Palm Beach, and past president of the American Trial Lawyers Assn.; Welcom H. Watson, Esq., of Watson, Hubert, LaSalle and Clark of Fort Lauderdale, and Secretary/Treasurer of United Federal Savings and Loan Assn.; Barry Weinstein, Esq., of the Dade County Public Defenders Office and President of the Nova Law School Alumni Assn.; Mrs. Keith Wold, prominent Boca Raton civic leader.

CAE (Continued from Page 1)

The Center will also provide post-graduate support for its entire network of degree holders and for other committed practitioners by holding workshops and other in-service training sessions in response to stated needs; establishing formal and informal information networks, including publications; providing resources; and serving as a catalyst for the exchange of ideas.
